DOĞANIN İÇİNDE
IMMERSED IN NATURE

Miren spanec, kot bi bili v naravi ...
Modeli, kjer se mehki toni srečajo z nežnimi teksturami, odražajo naravnost narave v spalnicah.

A tranquil sleep as if within the heart of nature itself...
Designs where soft tones merge with gentle textures, echoing the natural serenity in bedrooms..

Romantic *Touch*

Spalnice, okrašene s cvetjem, simbolom nežnosti narave ... Navdihnjene s konceptom romantične podeželske hiše, kolekcija Romantic Touch v svoje modele prinaša sveže razcvetele spomladanske rože. Majhni karo vzorci, nabrani detajli, potiski s trakovi in pentljami ustvarjajo intimno vzdušje.

Bedrooms adorned with flowers as if symbols of nature's delicacy... Inspired by the romantic charm of a country cottage, the Romantic Touch brings the essence of newly bloomed spring flowers into its designs. Small chequered patterns, frilly details, airy ribbons, and bows create an intimate atmosphere.
